Dear Parents/Carers,

## Drinking Water

You may remember that I wrote to you in June explaining that due to problems with the supplier of the water coolers used in school, children would be required to bring a named bottle of water with them to school each day (which could be re filled from the tap if necessary) additional to their drink for lunchtime.

Having spent a number of weeks looking into both the possibility of finding an alternative supplier and/or alternative options, we have come to the decision that for environmental reasons we would like to continue with the children bringing a named bottle of water with them to school each day.

By using a reusable eco-friendly water bottle and filling it up from the tap, we can all lower our carbon footprint.

I hope you will support our decision and provide your child with a named re-fillable water bottle to bring to school each day. These will be stored in the classroom so that children can access them throughout the day similar to the way they accessed water from the water coolers.

Thank you for your continued support,

Yours sincerely

D. Pilsworth
