

## The John Harrox Primary School - School Values

Our school values encompass 5 key C's.

**Caring** - to ensure children develop a caring nature towards one another, their environment and their community.

**Courteous** - to help children to become polite, we-mannered and respectful individuals.

**Considerate** - to ensure children grow up to think about the needs, feelings and views of others.

**Co-operative** - to help children develop the communication skills necessary to work well with others.

**Conscientious** - to foster an attitude within every child where they have an inner desire to do their best, each and every day, in order to become the best person they can be.

These 5 C's are the values that underpin our school **Community** ensuring it is a supportive, safe and nurturing environment for everyone within it - pupils, parents, staff and visitors.

**Community** involvement is an essential part of our curriculum as we celebrate local traditions, industry and the area in which our children live. Children leave the school with a sense of belonging to a tightly knit community where they have the confidence and skills to make decisions, self-evaluate, make connections and become lifelong learners.
