

THE HARROX WEEKLY

Curriculum Highlights

This week, Reception children had a visit from Cameron from Baytree. We had been selected as one of the five schools to take part in a growing competition 'Baytree's Blooming Stars 2024'. The purpose of the competition is to introduce young children to the joys of growing plants. To show the children how and the why nurturing plants, from their tender beginnings to their full bloom glory, is important. The plants will be kept in school for a few weeks before being sent home with children to be looked after. Then, in August the schools will be judged by Baytree to see who has developed the best display. The finalists will receive a gardening goody bag and the winner from our school will win a Blooming Stars gardening pack. The overall winner will also receive a £50 voucher to spend at Baytree.

Well done to Jeffers class who delivered a lovely class assembly sharing their year's learning across the curriculum so far. It's amazing how much they have achieved this year.

Our Y5 children have had the opportunity to take part in Bikeability this week. A programme to develop road safety awareness when cycling. The feedback from the instructors was fantastic as they expressed what a well behaved and enthusiastic group of children they were.

Well done to all the children for their achievements.

Special Achievements

This week's Wow achievers were:

Wow! Henry, George, Isla, Lucas, Penny, Amelia and Alfie all carefully drew and labelled a plant explaining the functions of its features.

Piper, Erin and Effie worked creatively to present their homework research about astronauts. Wow!

As already mentioned, Y5 children carried out the Bikeability programme and received their certificates in assembly today.

Certificates were also presented to the Y3/4 children who took part in the cross-country competition.

Sporting News

On Friday 19th we played St Norbert's School at netball. It was a very close hard-fought game which we came out as 7-6 winners. Lily played a strong game, particularly playing well as Goal Shooter.

This game was followed by a girl's football game on Monday evening against Pinchbeck East. This finished in a 3-3 draw. All the girls played well and kept going right to the end with Megan particularly controlling things in centre midfield and scoring the equalising goal.

On Tuesday we took a boys and girls Y3/4 cross country team to St. Bartholomew's School. Overall, the team came third out of sixteen schools with a particular mention going to Holly who finished 5th in the girls race and Archie who finished 4th in the boys.

Well done to all our sport team members, representing the school superbly.
