

SCIENCE PROGRESSION MAP

		EYFS	KS1	LKS2	UKS2
PLANTS Teaching Ideas: Year 1 Year 2 LKS2	Observe and Identify	-Talk about some of the things they have observed such as plants, animals, natural and found objects.	-Identify and name a variety of common wild and garden plants, including deciduous and evergreen trees		
	Life cycle and reproduction		-Observe and describe how seeds and bulbs grow into mature plants	- Explore the part that flowers play in the life cycle of flowering plants, including naming parts of the flower and methods of seed dispersal.	-Describe the life process of reproduction in some plants (pollination - asexual and sexual reproduction and seed dispersal) and animals. (Brought across from living things and their habitats)
	Parts of a plant		-Identify and describe the basic structure of a variety of common flowering plants, including trees.	-Identify and describe the functions of different parts of flowering plants: roots, stem/trunk, leaves and flowers -Investigate the way in which water is transported within plants	

	Requirements for growth		-Find out and describe how plants need water, light and a suitable temperature to grow and stay healthy.	-Explore the requirements of plants for life and growth (air, light, water, nutrients from soil, and room to grow) and how they vary from plant to plant	
<p>MATERIALS + STATES OF MATTER</p> <p>Teaching Ideas: Year 1 Year 2 LKS2 UKS2</p>	Identify and Compare everyday materials	-Children know about similarities and differences in relation to places, objects, materials and living things.	<p>-Distinguish between an object and the material from which it is made</p> <p>-Identify and compare the suitability of a variety of everyday materials, including wood, metal, plastic, glass, brick, rock, paper and cardboard for particular uses</p> <p>-Describe the simple physical properties of a variety of everyday materials</p> <p>-Compare and group together a variety of everyday materials on the basis of their simple physical properties.</p>		<p>-Compare and group together everyday materials on the basis of their properties, including their hardness, solubility, transparency, conductivity (electrical and thermal), and response to magnets</p> <p>-Give reasons, based on evidence from comparative and fair tests, for the particular uses of everyday materials, including metals, wood and plastic</p>

	Changing States - Solids, Liquids and Gases		<p>-Find out how the shapes of solid objects made from some materials can be changed by squashing, bending, twisting and stretching.</p>	<p>-Compare and group materials together, according to whether they are solids, liquids or gases</p> <p>-Observe that some materials change state when they are heated or cooled, and measure or research the temperature at which this happens in degrees Celsius (°C)</p> <p>-Identify the part played by evaporation and condensation in the water cycle and associate the rate of evaporation with temperature.</p>	<p>-Use knowledge of solids, liquids and gases to decide how mixtures might be separated, including through filtering, sieving and evaporating</p>
--	--	--	--	---	--

	<p>Changing States - Dissolving and Mixing</p>				<p>-Know that some materials will dissolve in liquid to form a solution, and describe how to recover a substance from a solution</p> <p>-Demonstrate that dissolving, mixing and changes of state are reversible changes</p> <p>-Explain that some changes result in the formation of new materials, and that this kind of change is not usually reversible, including changes associated with burning and the action of acid on bicarbonate of soda.</p>
<p>SEASONS & WEATHER</p> <p><u>Year 1</u></p>	<p>Seasons & Weather</p>		<p>-Observe changes across the four seasons</p> <p>-Observe and describe weather associated with the seasons and how day length varies.</p>		

<p>LIVING THINGS IN THEIR HABITATS + ANIMALS inc HUMANS</p> <p>Living Things in their Habitats: Year 2 LKS2 UKS2</p> <p>Animals inc Humans: Year 1 Year 2 Year 3 Year 4 Year 5 Year 6</p>	<p style="text-align: center;">Grouping and classifying</p>	<p>-They make observations of animals and plants and explain why some things occur, and talk about changes. -Talk about some of the things they have observed such as plants, animals, natural and found objects.</p>	<p>---Explore and compare the differences between things that are living, dead, and things that have never been alive -Identify and name a variety of common animals including fish, amphibians, reptiles, birds and mammals -Describe and compare the structure of a variety of common animals (fish, amphibians, reptiles, birds and mammals, including pets)</p>	<p>-Recognise that living things can be grouped in a variety of ways -Explore and use classification keys to help group, identify and name a variety of living things in their local and wider environment</p>	<p>-Describe the differences in the life cycles of a mammal, an amphibian, an insect and a bird -Describe the life process of reproduction in some plants and animals -Give reasons for classifying plants and animals based on specific characteristics. -Describe how living things are classified into broad groups according to common observable characteristics and based on similarities and differences, including micro-organisms, plants and animals</p>
---	--	---	---	--	--

	Food Chains		<ul style="list-style-type: none"> -Identify and name a variety of common animals that are carnivores, herbivores and omnivores -Describe how animals obtain their food from plants and other animals, using the idea of a simple food chain, and identify and name different sources of food. 	<ul style="list-style-type: none"> -Construct and interpret a variety of food chains, identifying producers, predators and prey. 	
	Habitats and Adaptation		<ul style="list-style-type: none"> -Identify that most living things live in habitats to which they are suited and describe how different habitats provide for the basic needs of different kinds of animals and plants, and how they depend on each other -Identify and name a variety of plants and animals in their habitats, including micro-habitats 	<ul style="list-style-type: none"> -Recognise that environments can change and that this can sometimes pose dangers to living things. 	<ul style="list-style-type: none"> -Identify how animals and plants are adapted to suit their environment in different ways and that adaptation may lead to evolution. <p>(brought across from Evolution and Inheritance)</p>

	Bodily Functions		<ul style="list-style-type: none"> -Identify, name, draw and label the basic parts of the human body and say which part of the body is associated with each sense. 	<ul style="list-style-type: none"> -Identify that humans and some other animals have skeletons and muscles for support, protection and movement. -Describe the simple functions of the basic parts of the digestive system in humans -Identify the different types of teeth in humans and their simple functions 	<ul style="list-style-type: none"> -Identify and name the main parts of the human circulatory system, and describe the functions of the heart, blood vessels and blood
	Healthy Living	<ul style="list-style-type: none"> -Children know the importance for good health of physical exercise, and a healthy diet, and talk about ways to keep healthy and safe 	<ul style="list-style-type: none"> -Find out about and describe the basic needs of animals, including humans, for survival (water, food and air) -Describe the importance for humans of exercise, eating the right amounts of different types of food, and hygiene. 	<ul style="list-style-type: none"> -Identify that animals, including humans, need the right types and amount of nutrition, and that they cannot make their own food; they get nutrition from what they eat 	<ul style="list-style-type: none"> -Recognise the impact of diet, exercise, drugs and lifestyle on the way their bodies function -Describe the ways in which nutrients and water are transported within animals, including humans.
	Human growth	<ul style="list-style-type: none"> -Developing an understanding of growth, decay and changes over time 	<ul style="list-style-type: none"> -Notice that animals, including humans, have offspring which grow into adults 		<ul style="list-style-type: none"> -Describe the changes as humans develop to old age.

ROCKS <u>LKS2</u>	Recognise and compare			<ul style="list-style-type: none"> -Compare and group together different kinds of rocks on the basis of their appearance and simple physical properties -Recognise that soils are made from rocks and organic matter. 	
	Fossils			<ul style="list-style-type: none"> -Describe in simple terms how fossils are formed when things that have lived are trapped within rock 	<ul style="list-style-type: none"> -Recognise that living things have changed over time and that fossils provide information about living things that inhabited the Earth millions of years ago (Brought across from Evolution and Inheritance)

<p>LIGHT</p> <p>LKS2</p> <p>UKS2</p>	<p>Travelling and Reflection</p>			<p>-Recognise that they need light in order to see things and that dark is the absence of light</p> <p>-Notice that light is reflected from surfaces</p>	<p>-Recognise that light appears to travel in straight lines</p> <p>-Use the idea that light travels in straight lines to explain that objects are seen because they give out or reflect light into the eye</p> <p>-Explain that we see things because light travels from light sources to our eyes or from light sources to objects and then to our eyes</p>
	<p>Sun safety</p>			<p>-Recognise that light from the sun can be dangerous and that there are ways to protect their eyes</p>	
	<p>Shadows</p>			<p>-Recognise that shadows are formed when the light from a light source is blocked by an opaque object</p> <p>-Find patterns in the way that the size of shadows change.</p>	<p>-Use the idea that light travels in straight lines to explain why shadows have the same shape as the objects that cast them.</p>

<p>FORCES & MAGNETS</p> <p><u>LKS2</u> <u>UKS2</u></p>	<p>Magnets and Magnetism</p>			<ul style="list-style-type: none"> -Notice that some forces need contact between two objects, but magnetic forces can act at a distance -Observe how magnets attract or repel each other and attract some materials and not others -Compare and group together a variety of everyday materials on the basis of whether they are attracted to a magnet, and identify some magnetic materials -Describe magnets as having two poles -Predict whether two magnets will attract or repel each other, depending on which poles are facing. 	
	<p>Gravity</p>				<ul style="list-style-type: none"> -Explain that unsupported objects fall towards the Earth because of the force of gravity acting between the Earth and the falling object

	Resistance and Friction			-Compare how things move on different surfaces	-Identify the effects of air resistance, water resistance and friction, that act between moving surfaces
	Mechanism using forces (link to DT)				-Recognise that some mechanisms, including levers, pulleys and gears, allow a smaller force to have a greater effect.
ELECTICITY LKS2	Appliances			-Identify common appliances that run on electricity	

UKS2

Creating and Drawing Simple Circuits

- Construct a simple series electrical circuit, identifying and naming its basic parts, including cells, wires, bulbs, switches and buzzers
- Identify whether or not a lamp will light in a simple series circuit, based on whether or not the lamp is part of a complete loop with a battery
- Recognise that a switch opens and closes a circuit and associate this with whether or not a lamp lights in a simple series circuit

-Use recognised symbols when representing a simple circuit in a diagram.

	Investigating Electricity			<p>-Recognise some common conductors and insulators, and associate metals with being good conductors.</p>	<p>-Associate the brightness of a lamp or the volume of a buzzer with the number and voltage of cells used in the circuit</p> <p>-Compare and give reasons for variations in how components function, including the brightness of bulbs, the loudness of buzzers and the on/off position of switches</p>
<p>SOUND</p> <p><u>LKS2</u></p>	Creation and Travelling			<p>-Identify how sounds are made, associating some of them with something vibrating</p> <p>-Recognise that vibrations from sounds travel through a medium to the ear</p>	

	Pitch, volume and distance			<ul style="list-style-type: none"> -Find patterns between the pitch of a sound and features of the object that produced it -Find patterns between the volume of a sound and the strength of the vibrations that produced it -Recognise that sounds get fainter as the distance from the sound source increases. 	
<p>EARTH AND SPACE</p> <p><u>UKS2</u></p>	Earth and Space				<ul style="list-style-type: none"> -Describe the movement of the Earth, and other planets, relative to the Sun in the solar system -Describe the movement of the Moon relative to the Earth -Describe the Sun, Earth and Moon as approximately spherical bodies -Use the idea of the Earth's rotation to explain day and night and the apparent movement of the sun across the sky.

EVOLUTION
AND
INHERTIANCE

UKS2

Fossils and Evidence			-Describe in simple terms how fossils are formed when things that have lived are trapped within rock (Brought across from Rocks)	-Recognise that living things have changed over time and that fossils provide information about living things that inhabited the Earth millions of years ago
Inheritance				-Recognise that living things produce offspring of the same kind, but normally offspring vary and are not identical to their parents
Evolution		-Identify that most living things live in habitats to which they are suited and describe how different habitats provide for the basic needs of different kinds of animals and plants, and how they depend on each other -Identify and name a variety of plants and animals in their habitats, including micro-habitats (Brought across from living things and their habitats)	-Recognise that environments can change and that this can sometimes pose dangers to living things. (Brought across from living things and their habitats)	-Identify how animals and plants are adapted to suit their environment in different ways and that adaptation may lead to evolution.
